Password: *****
 Remember password
 Require logon using Secure Password Authentication (SPA)

Test Account Settings

After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)

Test Account Settings ...

Test Account Settings ... **Skinite ovu štriklu**

Klik na "More Settings..." → More Settings ...

< Back Next > Cancel

Internet E-mail Settings

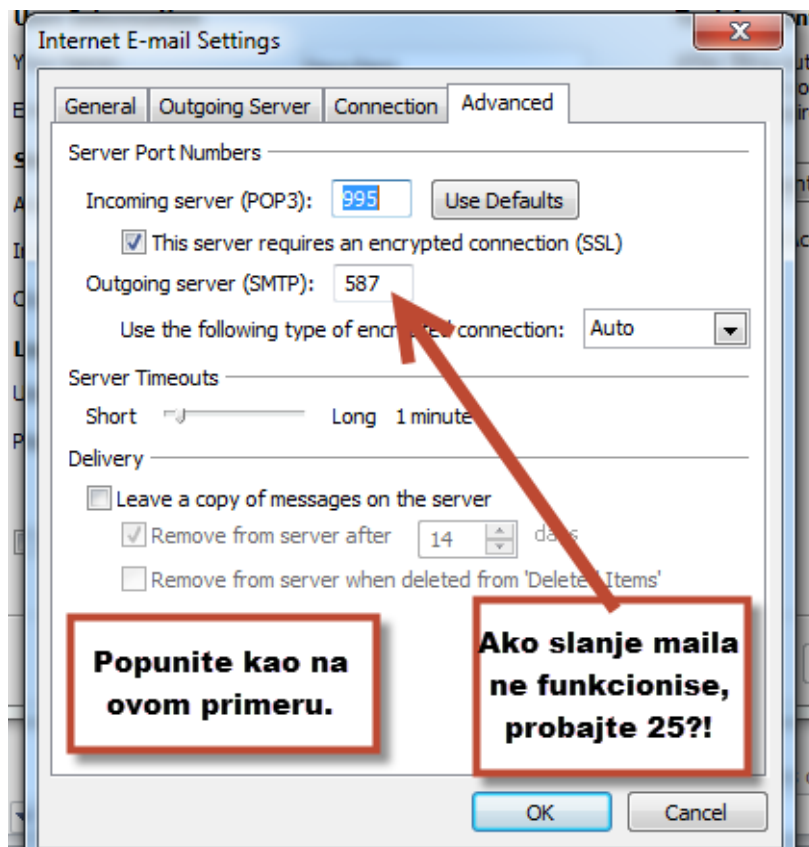

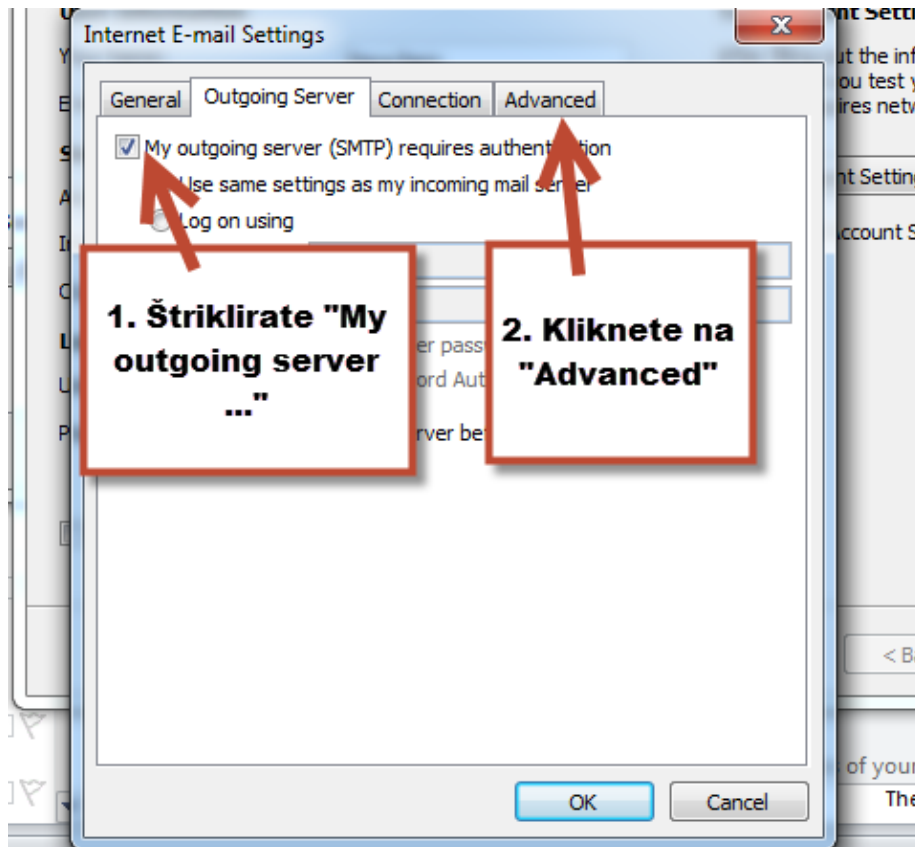

General **Outgoing Server** Connection Advanced

Mail Account
Type the name by which you want to refer to this account. For example: "Work" or "Microsoft Mail Server"
pera.peric@vas_domen.rs

Other User Information

Organization:
Reply E-mail:
Klik na Outgoing Server

OK Cancel

Nakon unošenja svih podataka klik na OK do kraja. Da bi slali mail preko ovog Accounta potrebno je da kad kliknete na "New E-mail" proverite da li vam je ova e-mail adresa upisana u "From", ako ne izaberite je iz padajućeg menia.

Napomena uz parameter na poslednjoj slici "Outgoing server (SMTP)": Neki Internet provajderi blokiraju podrazumevajući port za slanje pošte (port 25 koji stoji u osnovnoj konfiguraciji), zato je potrebno da se tu unese port 587, postoji mogućnost (vrlo mala) da provajder baš obrnuto nema otvoren port 587, te mail neće da se ode (ostaje u Outbox-u), u tom slučaju možete probati sa portom 25?!
