

PODEŠAVANJE PRISTUPA NA SERVER
TESLA IZ MICROSOFT OUTLOOK-A
2010

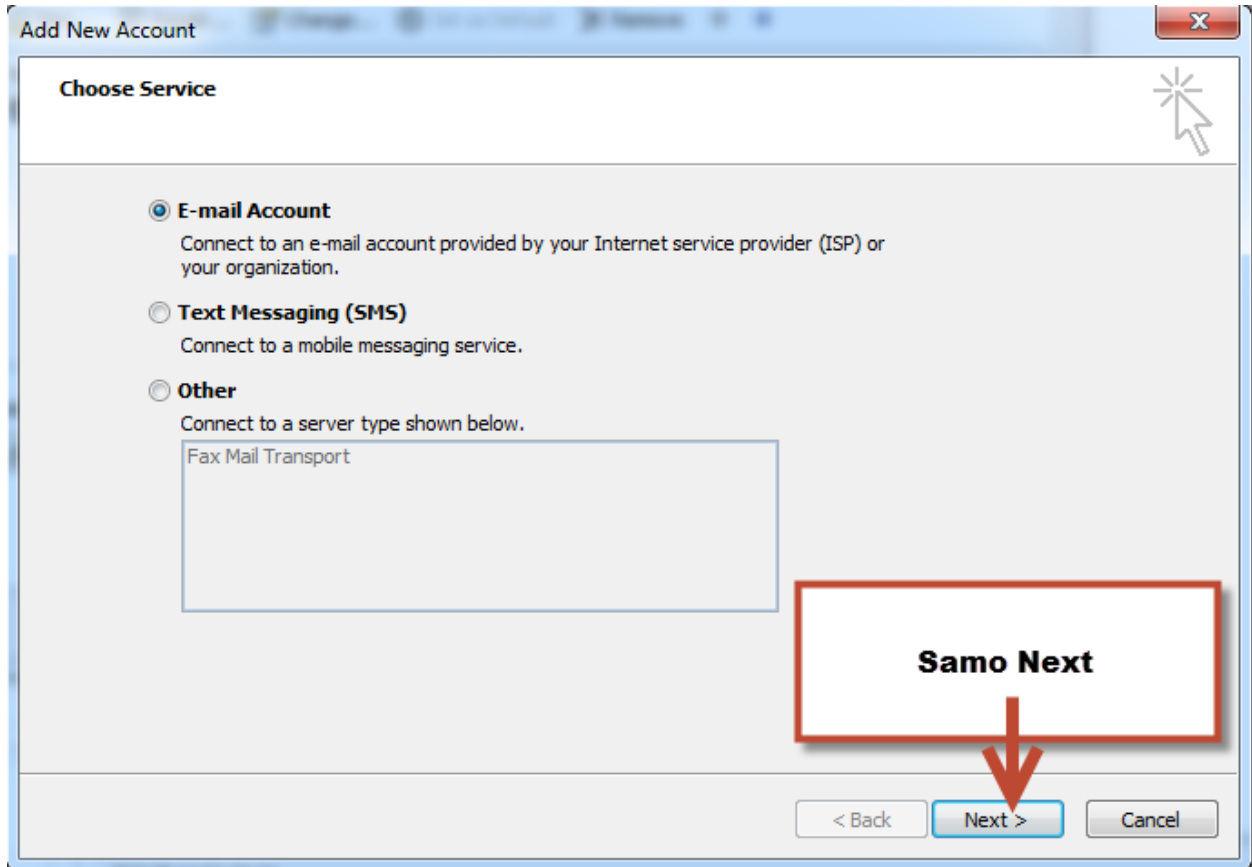

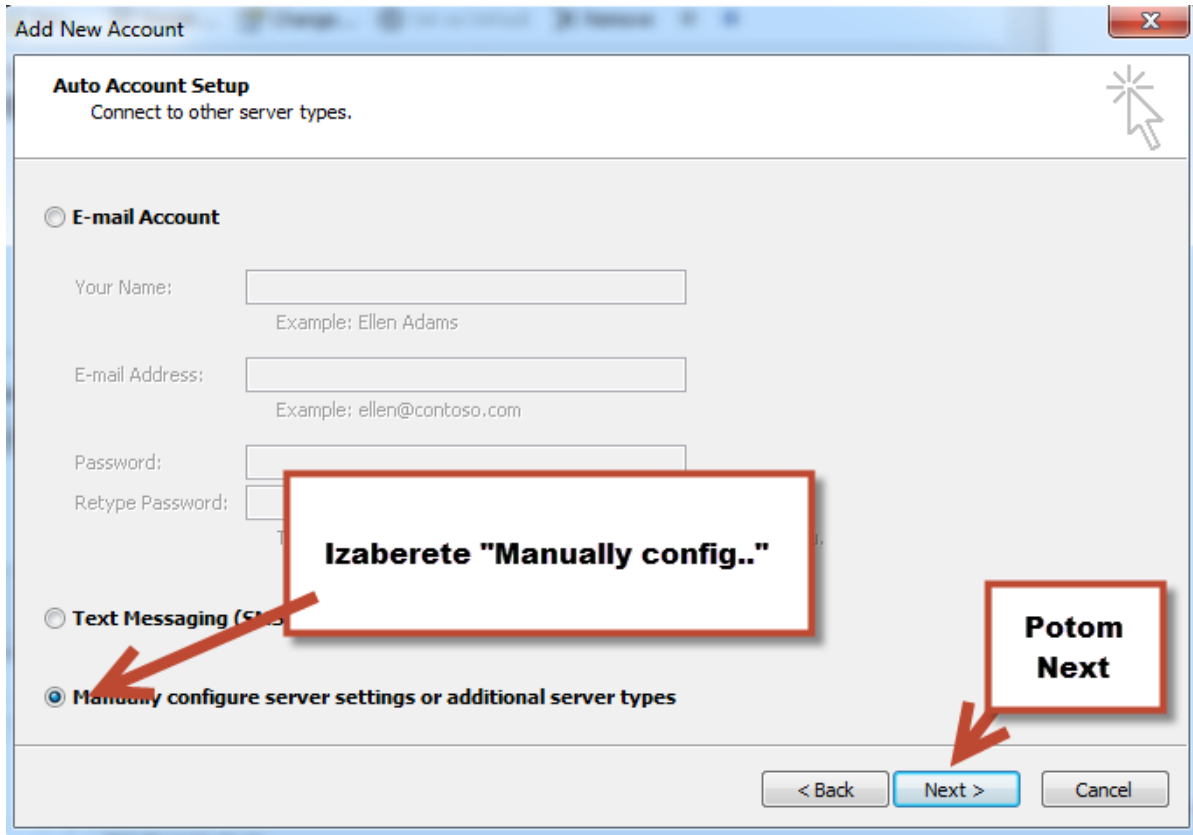

*TESLA iz MS
OUTLOOK MS 2010*

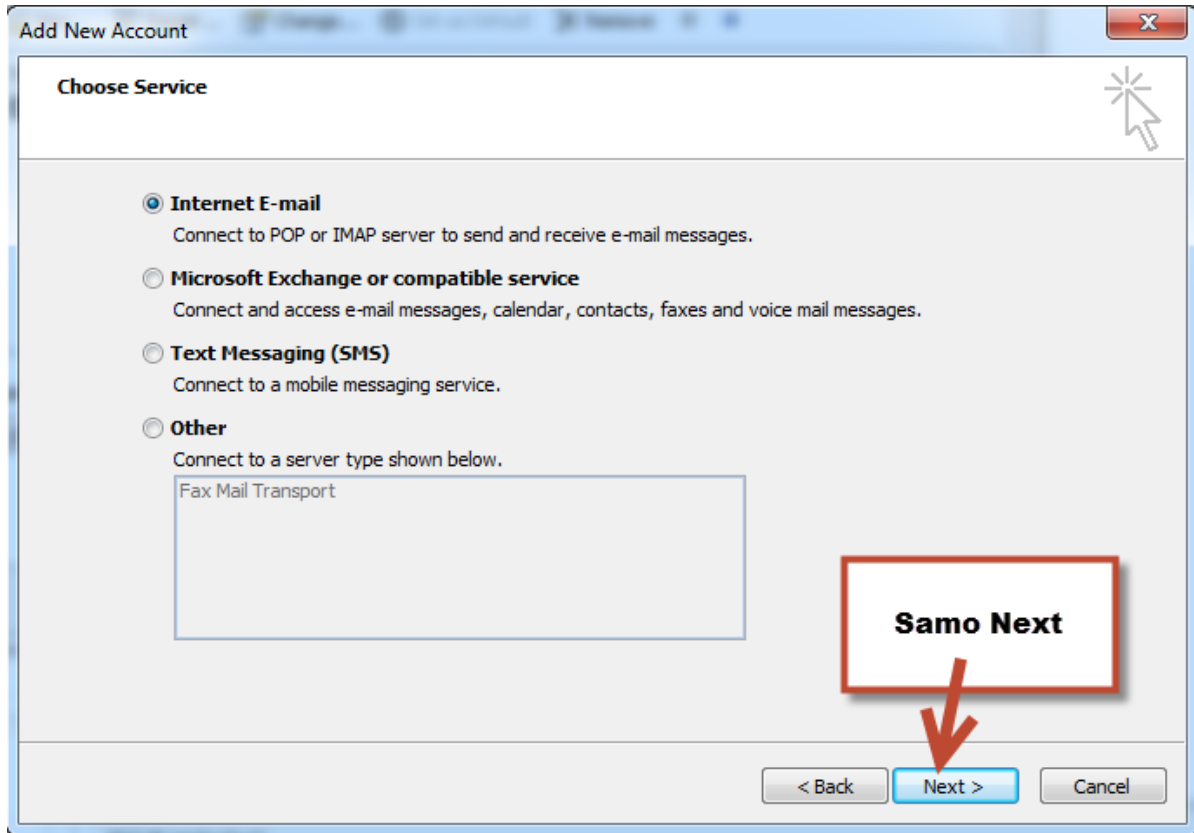

Napomena: Uputstvo je pravljeno na Microsoft Outlooku na kom već postoje Accounti (dodavanje), tako da ukoliko kreirate svoj prvi Account na vašem Microsoft Outlooku, početak se može razlikovati od datog primera:

Unasete vaše podatke u tabelu, Incoming i Outgoing unesite kako pise u ovom primeru, Account Type isto.

Internet E-mail Set
Each of these set

User Information

Your Name:

E-mail Address:

Server Information

Account Type:

Incoming mail server:

Outgoing mail server (SMTP):

Logon Information

User Name:

Password:

Remember password

Require logon using Secure Password Authentication (SPA)

Test Account Settings

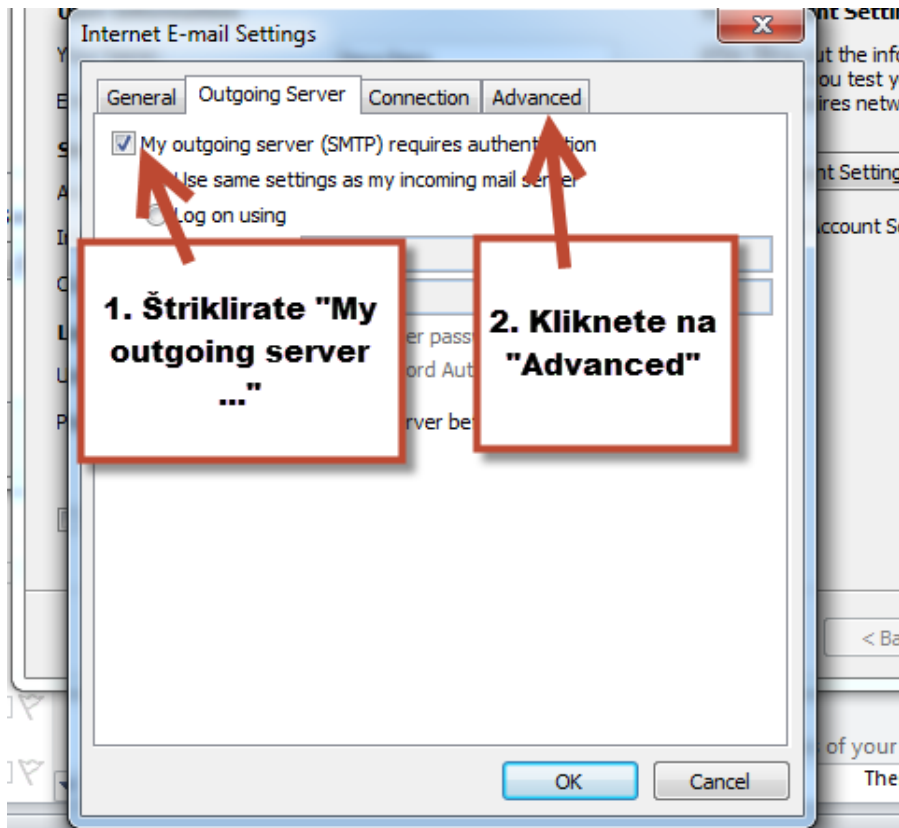

After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)

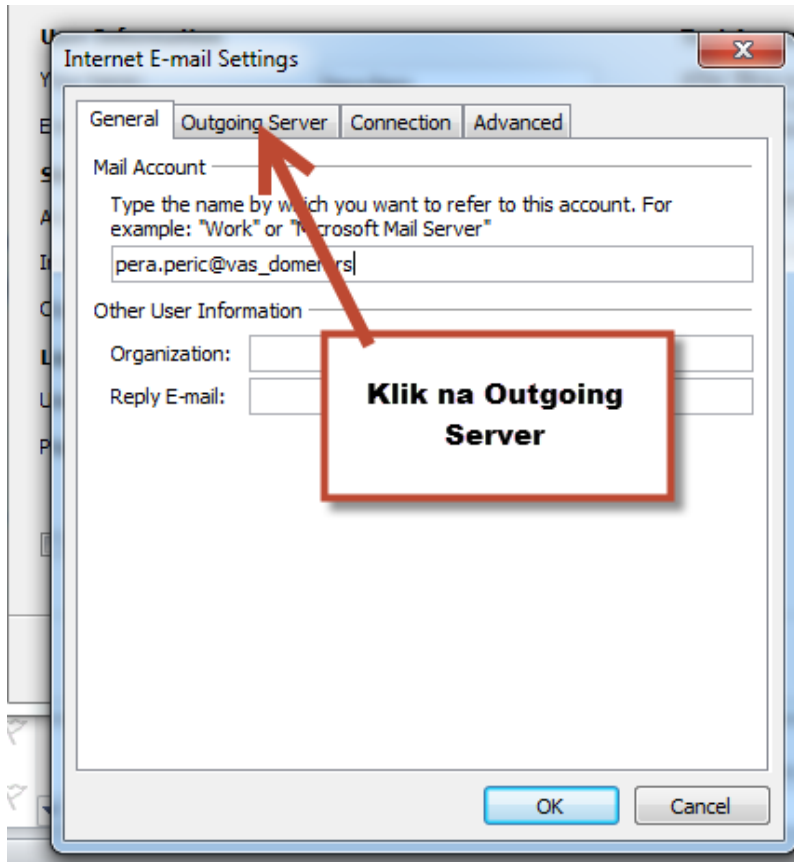

Test Account Settings by clicking the Next button

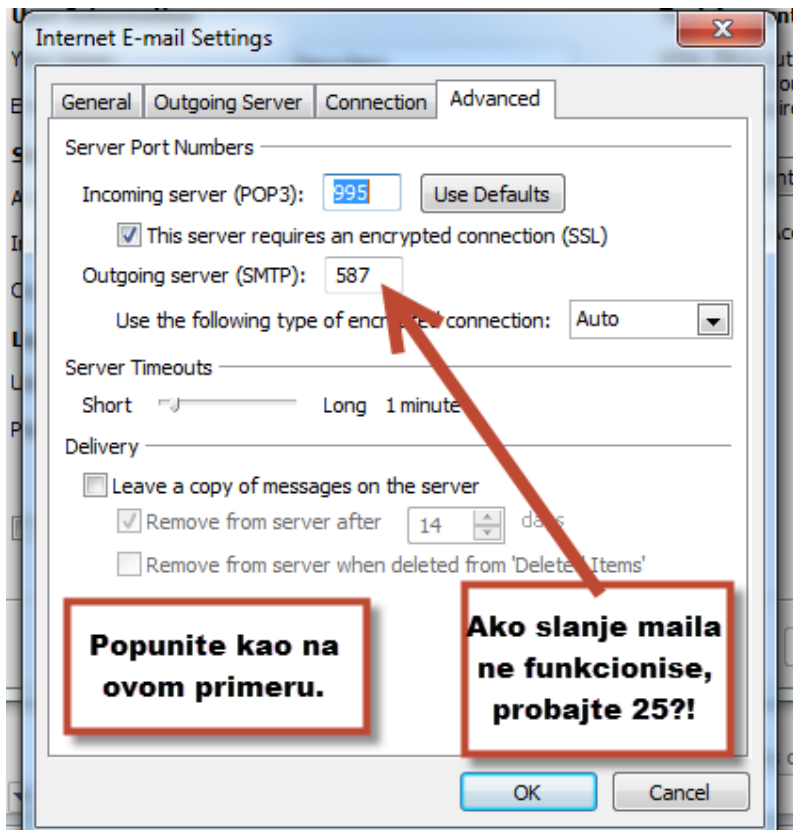

Skinite ovu striklu

Klik na More settings...

< Back 6

Nakon unošenja svih podataka kliknite na OK do kraja. Da biste slali mail-ove preko ovog Accounta potrebno je da kad kliknete na "New E-mail" proverite da li vam je ova e-mail adresa upisana u "From" (ukoliko nije izaberite je iz padajućeg menija). Napomena: uz parametar na poslednjoj slici "Outgoing server (SMTP)"- pojedini internet provajderi blokiraju podrazumevajući port za slanje pošte (port 25 koji stoji u osnovnoj konfiguraciji), zato je potrebno da se tu unese port 587, postoji mogućnost (vrlo mala) da provajder baš obrnuto nema otvoren port 587, te mail neće da ode (ostaje u Outbox-u), u tom slučaju možete probati sa portom 25.
