Distribution Cabinets

Distribution Cabinet

Introduction:

- The development of distribution cabinets is the practical reply from KRONE to the ever increasing demands on the data, telephone, and network technology.
- Cost-effective, custom-made solutions are being supplemented with an extensive modular related accessory programme and will result in a wide range of excellently designed standard distribution cabinets.
- The base frame consists of welded front and rear frame halves screwed together with connecting pieces.
- For easy transport and dismantling of the cabinet, only four screws need to be loosened. Doors and 19" angles can remain attached if the cabinets are fitted with cross-members in the frame halves.

The product programme consists of:

Pre-configuration of the standard model as an economical basic version and individually configured distribution cabinets with modular system accessories.

Besides modularity and flexibility, all distribution cabinets offer impressive user advantages, all conform to the newest international standards according to IEC 297-1/2 (19") and IEC 917-2-1 (metric). The rack has a high degree of stability with a low net weight and regular 25mm perforation levels for the installation with system accessories. The small profile allows a maximum usable width (19" and metric) and an additional height unit.

Features and advantages:

- Door can be hinged to open either left or right.
- Side walls fixed with four screws to the distribution cabinet and locked with a safety lock.
- Distance spacers allow the cabinets to be set up in rows irrespective of the installation level.
- Modular roof system with three areas for the individual configuration: cable entry with "brush" panels (fig. 1), passive ventilation or active fans (fig. 2). Identical openings are also available in the higher or lower side wall areas.
- Plinth (height 100mm) in closed and passive ventilated models with removable screens (fig. 6).
- Cross-member for depth-variable installation over the entire height. The 19" level can be installed either in the middle or in another position convenient for the user.
- Shelf carriers for the depth-variable installation of the 19" angle fittings.
- Shelves in solid or ductile material in several sizes and different depths for fixing on the frame profile on the front and back 19" sliding rails (fig. 4 and 5).
- Cable entry connection rails for mounting either at the top or bottom allow for the fitting of cable clamps and/or cable ties (pic. 3).
- Hinged shield for 800 mm wide cabinet, swivel-mounted for covering cable forms.
- Comprehensive accessories

Distribution Cabinet Sets

| Order Nr. | 19" Data Distribution Cabinet, with active ventilation | Pack |
|---------------|---|------|
| 0637 7 049-24 | DVS2000AW, 19"/43HU, active, 800x2000x800mm | 1 pc |

Protection: IP 41

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

- Front door with single-piece 3mm safety glass and pivoted handle.
- Closed rear door with pivoted handle.
- 482.6mm (19") bays:
front and rear, mounted with four Shelf supports for 19" mounting
- Base: 100mm high, with passive ventilation
- Roof and floor modules:
1 closed module
1 module with brush strip
1 module with 3 active ventilators
1 compensation module
- 1 Thermostat, 1 Earthing set, 4 Floor level adjusters and 2 Side walls
- 2 cable support rails for the width, 2 cable support rails for the depth

| Order Nr. | 19" Data Distribution Cabinet, with passive ventilation | Pack |
|---------------|--|------|
| 7049 1 052-00 | DVS 2000PW, 19"/43HU, passive, 800x2000x800mm | 1 pc |

Protection: IP 41

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

- Front door with single-piece 3mm safety glass and pivoted handle.
- Closed rear door with pivoted handle.
- 482.6mm (19") bays:
front and rear, mounted with four Shelf supports for 19" mounting
- Base: 100mm high, with passive ventilation
- Roof with modules with passive ventilation
- 1 Earthing set, 4 Floor level adjusters and 2 Side walls
- 2 cable support rails for the width, 2 cable support rails for the depth
- 1 set 19"-fixing material

Distribution Cabinet Sets

| Order No. | 19" Data Distribution Cabinet, with active ventilation | Pack |
|---------------|---|------|
| 7049 1 010-10 | DVS 1200A, 19"/25HU, active, 800x1200x800mm | 1 pc |
| 7049 1 001-10 | DVS 1200A, 19"/25HU, active, 600x1200x600mm | 1 pc |
| 7049 1 012-10 | DVS 2000A, 19"/43HU, active, 800x2000x800mm | 1 pc |
| 7049 1 012-11 | DVS 2000A, 19"/43HU, active, 800x2000x800mm, rowable version | 1 pc |

Protection: IP 41

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

- Front door with single-piece 3mm safety glass and pivoted handle.
- Closed rear door with pivoted handle.
- 482.6mm (19") bays:
 - 43HE: front and rear, mounted with four Shelf supports for 19" mounting
 - 25HE: front, mounted with four Shelf supports for 19" mounting
- Base, 100mm high, with passive ventilation
- Roof and floor modules:
 - 2 closed modules
 - 1 module with 3 active ventilators
 - 1 compensation module
- 1 Thermostat, 1 Earthing set, 4 Floor level adjusters
- 2 Side walls
- 2 cable support rails for the width, 2 cable support rails for the depth

|---------------|--|------|
| 7049 1 011-10 | DVS 2000P, 19"/43HU, passive, 800x2000x800mm | 1 pc |
| 7049 1 011-11 | DVS 2000P, 19"/43HU, passive, 800x2000x800mm, rowable version | 1 pc |

Protection: IP 41

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

- Front door with single-piece 3mm safety glass and pivoted handle.
- Closed rear door with pivoted handle.
- 482.6mm (19") bays:
 - front and rear, mounted with four Shelf supports for 19" mounting
- Base, 100mm high, with passive ventilation
- Roof with modules with passive ventilation
- 1 Earthing set, 4 Floor level adjusters
- 2 Side walls
- 2 cable support rails for the width, 2 cable support rails for the depth

Data Distribution Cabinet Set 2200mm

| Order No. | 19" Data Distribution Cabinet | Pack |
|---------------|--|------|
| 7049 1 023-00 | DVS 2200P, 19"/47HU, 800x2200x800mm | 1 pc |
| 7049 1 022-00 | DVS 2200P, 19"/47HU, 800x2200x600mm | 1 pc |
| 7049 1 018-00 | DVS 2200P, 19"/47HU, 600x2200x600mm | 1 pc |
| 7049 1 019-00 | DVS 2200P, 19"/47HU, 600x2200x800mm | 1 pc |

Protection: IP 41

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

- Front door with single-piece 3mm safety glass and pivoted handle.
- Closed rear door with pivoted handle.
- 482.6mm (19") bays:
front and rear, mounted with four Shelf supports for 19" mounting
- with 1 Earthing set, 4 Floor level adjusters and 2 Side walls
- without sidewalls, roof- and floor- modules

| Order No. | Side walls 2200mm | Pack |
|---------------|---|------|
| 7049 1 580-00 | DVS Side walls, lockable, 600x2200mm | 1 pc |
| 7049 1 581-00 | DVS Side walls, lockable, 800x2200mm | 1 pc |

Base, roof-, floor-modules and accessories are configurable.

On request are all cabinets also with 900mm and 1000mm widths available.

Distribution Cabinet Basic-Frame

| Order No. | Distribution Cabinet Basic-Frame width: 600 mm | Pack |
|---------------|--|------|
| 7049 1 300-05 | DVS 600, 600x600x600mm (w/d/h) for max. 11HU, Basic-Frame | 1 pc |
| 7049 1 301-05 | DVS 600, 600x800x600mm (w/d/h) for max. 11HU, Basic-Frame | 1 pc |
| 7049 1 310-05 | DVS 1200, 600x600x1200mm (w/d/h) for max. 25HU, Basic-Frame | 1 pc |
| 7049 1 311-05 | DVS 1200, 600x800x1200mm (w/d/h) for max. 25HU, Basic-Frame | 1 pc |
| 7049 1 320-05 | DVS 1600, 600x600x1600mm (w/d/h) for max. 34HU, Basic-Frame | 1 pc |
| 7049 1 321-05 | DVS 1600, 600x800x1600mm (w/d/h) for max. 34HU, Basic-Frame | 1 pc |
| 7049 1 330-05 | DVS 1800, 600x600x1800mm (w/d/h) for max. 38HU, Basic-Frame | 1 pc |
| 7049 1 331-05 | DVS 1800, 600x800x1800mm (w/d/h) for max. 38HU, Basic-Frame | 1 pc |
| 7049 1 340-05 | DVS 2000, 600x600x2000mm (w/d/h) for max. 43HU, Basic-Frame | 1 pc |
| 7049 1 341-05 | DVS 2000, 600x800x2000mm (w/d/h) for max. 43HU, Basic-Frame | 1 pc |

Technical Data:

Multiple profiled frame with 25mm grid. The narrow profiles allows a maximum usable width and one additional height unit.

Inner dimensions: B=width - 65mm, H=height - 75mm

for example: 7049 1 441-05

Width 800 mm, B=inner width 735mm

Height 2000 mm, H=inner height 1925 mm

Protection: IP 41

Material: 1.5 mm steel sheet. Colour: RAL 7035

The basic frame is made of one welded front- and one welded rear-frame bolted together. For disassembling -eg. for transport- only 4 screws must be unscrewed.

Scope of delivery of the basic frame: four swivel stands.
Individually configurable with doors, 19" bays, bases etc. see accessories.

| Order No. | Distribution Cabinet Basic-Frame width: 800 mm | Pack |
|---------------|--|------|
| 7049 1 410-05 | DVS 1200, 800x600x1200mm (w/d/h) for max. 25HU, Basic-Frame | 1 pc |
| 7049 1 411-05 | DVS 1200, 800x800x1200mm (w/d/h) for max. 25HU, Basic-Frame | 1 pc |
| 7049 1 420-05 | DVS 1600, 800x600x1600mm (w/d/h) for max. 34HU, Basic-Frame | 1 pc |
| 7049 1 421-05 | DVS 1600, 800x800x1600mm (w/d/h) for max. 34HU, Basic-Frame | 1 pc |
| 7049 1 430-05 | DVS 1800, 800x600x1800mm (w/d/h) for max. 38HU, Basic-Frame | 1 pc |
| 7049 1 431-05 | DVS 1800, 800x800x1800mm (w/d/h) for max. 38HU, Basic-Frame | 1 pc |
| 7049 1 440-05 | DVS 2000, 800x600x2000mm (w/d/h) for max. 43HU, Basic-Frame | 1 pc |
| 7049 1 441-05 | DVS 2000, 800x800x2000mm (w/d/h) for max. 43HU, Basic-Frame | 1 pc |

Closed-/Glass-doors

| Order No. | Doors, width: 600 mm | Pack |

Material: 1.5 mm Steel sheet powder-coated, colour RAL 7035

Door fixed left or right (changable)

Cabinets with 800mm width also available as 2-door version .

| Order No. | Swivel handles with lock | Pack |
|---------------|---|------|
| 7049 1 717-05 | DVS-Swivel handle with lock mechanism 19, with 1 key | 1 pc |
| 7049 1 716-05 | DVS-Swivel handle with lock mechanism ZN1, with 3 keys | 1 pc |
| 7049 1 715-05 | DVS-Swivel handle with square lock mechanism, with 1 key | 1 pc |
| 7049 1 720-05 | DVS-Swivel handle with lock mechanism Abloy, with 1 key | 1 pc |

Individual locking mechanisms and keys on request.

Sidewalls, Bases

| Order No. | Side walls for distribution cabinets with depth: 600 mm | Pack |
|---------------|--|-------|
| 7049 1 575-05 | DVS 600, Side walls 600T | 2 pcs |
| 7049 1 576-05 | DVS 1200, Side walls 600T | 2 pcs |
| 7049 1 577-05 | DVS 1600, Side walls 600T | 2 pcs |
| 7049 1 578-05 | DVS 1800, Side walls 600T | 2 pcs |
| 7049 1 579-05 | DVS 2000, Side walls 600T | 2 pcs |

Side walls fixed with four screws to the distribution cabinet and locked with a safety lock.

| Order No. | Side walls for distribution cabinets with depth: 800 mm | Pack |
|-----------------|--|-------|
| 7049 1 620-05 | DVS 600, Side walls 800T | 2 pcs |
| 7049 1 621-05 | DVS 1200, Side walls 800T | 2 pcs |
| 7049 1 622-05 | DVS 1600, Side walls 800T | 2 pcs |
| 7049 1 507-05 | DVS 1800, Side walls 800T | 2 pcs |
| 7049 1 501-0501 | DVS-2000, Side walls 800T | 2 pcs |

Side walls fixed with four screws to the distribution cabinet and locked with a safety lock.

| Order No. | Base, width: 600 mm | Pack |
|---------------|---|-------|
| 7049 1 560-05 | DVS Base 600x600x100 (w/d/h) passive ventilation | 1 pc |
| 7049 1 561-05 | DVS Base 600x800x100 (w/d/h) passive ventilation | 1 pc |
| 7049 1 562-05 | DVS Base 600x600x100 (w/d/h) passive ventilation | 1 pc |
| 7049 1 563-05 | DVS Base 600x800x100 (w/d/h) closed | 1 pc |
| 7049 2 040-00 | DVS Base 600 filter | 2 pcs |

| Order No. | Base, width: 800 mm | Pack |
|---------------|---|-------|
| 7049 1 564-05 | DVS Base 800x600x100 (w/d/h) passive ventilation | 1 pc |
| 7049 1 565-05 | DVS Base 800x800x100 (w/d/h) passive ventilation | 1 pc |
| 7049 1 566-05 | DVS Base 800x600x100 (w/d/h) closed | 1 pc |
| 7049 1 502-01 | DVS Base 800x800x100 (w/d/h) closed | 1 pc |
| 7049 2 041-00 | DVS Base 800 filter | 2 pcs |

Base (height 100mm) with passive ventilation or closed.

Air filters can be fitted behind the openings of the base with passive ventilation. No covers needed for setting up the cabinets in rows.

Removable screens for cable management below the cabinet.

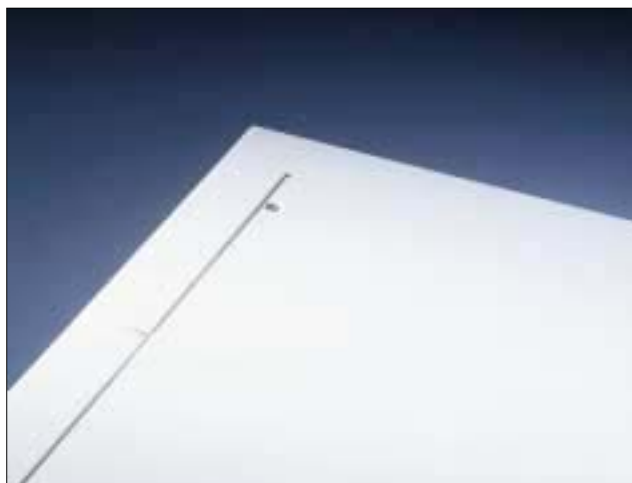

Powder-coated, colour RAL 7035

Roof-/ Floor- Modules
